

Experimental Facilities

Structural Biology Building

EXPERIMENTAL FACILITIES

| | |
|--|----|
| 1. Summary of Experimental Stations | 57 |
| 2. Reconstruction and Upgrading of Beamlines | 68 |
| 2-1. BL-7A, New Soft X-Ray Beamline for Surface Chemistry | |
| 2-2. BL-11D, VUV-SX Beamline for Photoemission Experimentalists | |
| 2-3. BL-9C, Versatile X-Ray Beamline | |
| 2-4. New BL-13A for Laser-Heating High-Pressure and High-Temperature Studies | |
| 2-1. Diamond Crystal Monochromator for an X-Ray Undulator Beamline, AR-NE3A | |
| 3. Beamlines under Construction | 75 |
| 3-1. Construction of BL-1A | |
| 3-2. New Beamlines at PF-AR | |
| 4. New Instrumentation | 79 |
| 4-1. P _c Monitor at AR-NE1A1 | |
| 4-2. Structural Biology Building | |
