

CONTENTS

INTRODUCTION

Introduction T. Matsushita	1
----------------------------------	---

HIGHLIGHTS

1. Atomic and Molecular Science	5
2. Chemistry	6
3. Surfaces and Interfaces	10
4. Electronic Structure of Condensed Matter	15
5. Materials Science	19
6. Crystallography	23
7. High Pressure Science.....	26
8. Biological Science	30
9. Applied Science.....	43
10. Instrumentation and Technique.....	46

EXPERIMENTAL FACILITIES

1. Summary of Experimental Stations	51
2. Construction and Upgrading of Beamlines	62
3. New Experimental Facilities and Apparatus	66
4. Structural Biology Group	69

ACCELERATORS

1. Outline of the Accelerators	77
2. PF Ring	81
3. PF-AR	91

PROGRAMS

1. Experimental Programs	101
2. Educational Programs	103
3. International Collaboration	104
4. Workshops and Seminars	106

APPENDICES

1. Site and Organization	110
2. List of Publications	118
