

Accelerators

ACCELERATORS

1. Outline of the Accelerators	101
2. PF Ring	104
2-1 Summary	
2-2 Development of a polarization-switching source at the Photon Factory	
2-3 A Fast local bump system for helicity switching at BL-16	
2-4 PF top-up injection	
2-5 Development of a Longitudinal Bunch-by-Bunch Feedback System	
2-6 Beam Injection System by Use of a Pulsed Sextupole Magnet at the Photon Factory Storage Ring	
2-7 Renovation of the SR Monitor and Measurement of Emittance at the Photon Factory	
3. PF-AR	121
3-1 Summary	
3-2 Movable Synchrotron Radiation Masks with SiC Absorbers for the Photon Factory Advanced Ring	
3-2 Pulsed Quadrupole Magnet Injection at the PF-AR Storage Ring
