

Road restriction concerning construction work of a new tunnel for direct injection from LINAC to PF-AR

A new tunnel will be constructed for direct injection from LINAC to PF-AR.

Road restriction is planned as indicated on the map.

Automobiles must take an adequate DETOUR for the indicated **Construction Area** on the **blue** and **lime** days.

Please note that the schedule may be changed due to the weather condition etc. and the construction will continue until April, 2014.

There might be temporal closure of walking and cycling paths (details to be announced).

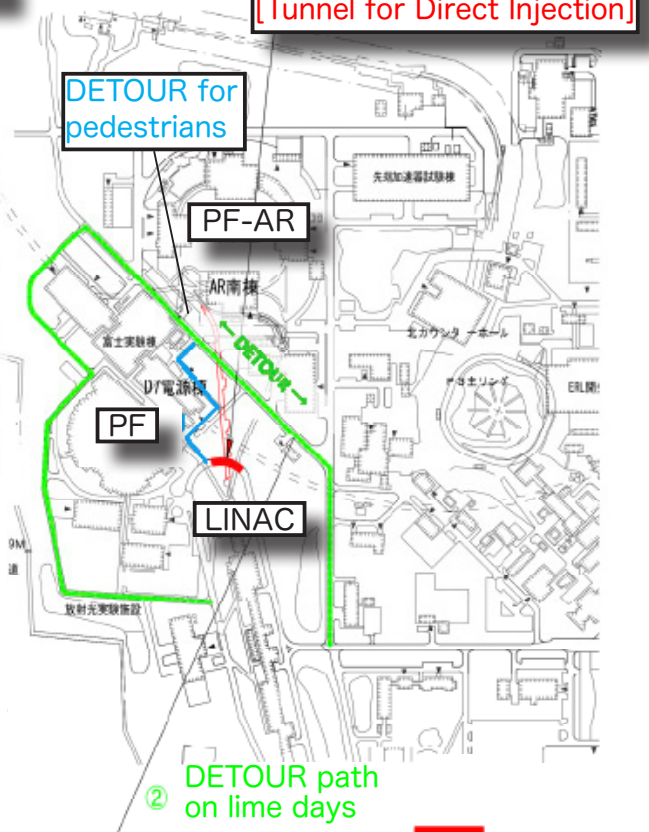

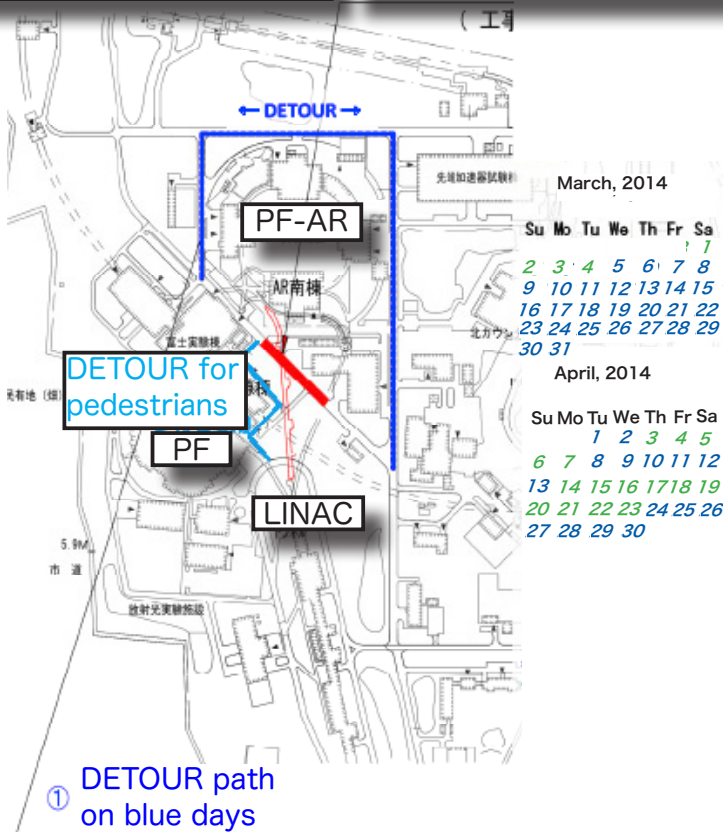

Please be very careful about road traffic during the construction work.
