Mode of access

Ind (individual but information to be forwarded to the PF)

Col (collective access through the PF)

Beside the above facilities, Prof. Kosugi has received a letter of invitations for the Japanese researchers, which may help you in selection of the facilities.

Nobu,

This is indeed sobering news. In terms of science, I would be happy to invite any Japanese researchers who would like to work at the ALS to join my team for our regular beamtimes, and also to assist anyone who would like to have independent beamtime at the ALS. I would be happy to provide further information to anyone interested.

Best wishes,

Dennis
